PROFILE

Motivated and detail-oriented Frontend Developer with 2+years of hands-on experience in creating responsive and visually appealing web applications. Proficient in HTML, CSS, JavaScript, React, Git, and GitHub. Seeking an opportunity to contribute my skills and creativity to a dynamic team and help drive exceptional user experiences.

WORK EXPERIENCE

ESSEL SYNERG TECH | Bangalore   MAR 2022 - PRESENT

Frontend Developer

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal user experience.
- Collaborated closely with the design team to transform wireframes and mockups into pixel-perfect, user-friendly interfaces.
- Implemented interactive features and dynamic content using JavaScript to enhance user engagement and functionality.
- Utilized React to build single-page applications, improving load times and providing a seamless user experience.
- Assisted in developing and maintaining a style guide to ensure consistency across multiple projects.
- Kept up to date with industry trends and best practices, continuously improving my skills and applying them to projects.

Projects

FRUIT-SHOP

- The FruitShop application is a digital platform designed to facilitate the buying and selling of fruits. It provides a convenient and user-friendly interface for both customers and vendors to engage in fruit transactions.
- Technologies Used : HTML,CSS(Tailwind),React.js

PORTFOLIO

- A portfolio is a curated collection of work samples, projects, achievements, and experiences that showcase an individual's skills, talents, and capabilities. It serves as a comprehensive representation of one's professional or creative journey, often used for career advancement, job applications, freelance opportunities, or personal branding purposes.
- Technologies Used : HTML,CSS,React.js

BURGER RESTAURANT-APP

- The Burger Restaurant App is a digital platform designed to enhance the customer experience and streamline operations for a burger restaurant. It provides a convenient way for customers to browse the menu, place orders, customize their meals, and make payments. Additionally, it offers features to improve restaurant management and efficiency.
